

We can't wait to welcome you back!

The safety and well-being of our guests and staff is our top priority.

To help create a safe environment for everyone, we're enhancing our high standards of hygiene even further. There will also be some changes to our normal style of service ensuring everyone is safe, but you can rest assured that we want you to have an amazing time and we want to help you do this with confidence.

On arrival you will see that we have designated doors for entry and exit all with sanitising stations. Every Customer will be asked to access the **NHS Covid 19 app** and scan our QR code on arrival where you can fill out your details for the Government's track and trace programme. **This is a legal requirement.** Should you not have a suitable device a paper version is available.

We have temporarily reduced our opening hours and we're serving a slightly reduced menu. We have reduced the maximum size of tables in line with government guidance and introduced new measures to ensure safe distancing.

We are only offering table service with reservations for drinks as well as food.

We have deep cleaned everywhere, and thorough cleaning routines are taking place regularly all day, every day. Every table is cleaned thoroughly at the end of every guest visit.

We are encouraging contactless payments to avoid handling cash. The contactless limit for card payments has increased to £45. You can use Apple and Googlepay.

These are a few of the measures we have taken but be assured that our concern is not only to give guests and employees the most positive of experiences, but also to ensure that their health and safety is paramount.

We therefore ask all our guests to be respectful of this policy when they visit us.
